FACILITATING INNOVATION

CO-CREATING POSSIBILITIES

MASTERCLASS WORKSHOP

About the Workshop

This master class workshop is about creating a Culture of Innovation. What if the people in your Organization were inspired to develop innovative ways of working, to see new opportunities with customers and to implement the changes that are necessary for renewal? What would that mean for your Innovation capacity? How could the potential be released?

People are your best resource for becoming more innovative as an Organization. This workshop will offer concrete tools for managers, developers and change agents to increase participation and to unleash the creativity in your Organization. Participants will learn to apply the essentials of process facilitation and group tools to facilitate an Innovation workshop.
